

A message from:

Nancy Lynch, Ed.D., Superintendent

Welcome to the Placerville Union School District website. I hope you use this valuable resource throughout the year as well as become an active participant in our school community.

We are proud of the student achievement at each of our district schools. All schools have received numerous recognitions and awards for meeting high standards and closing the achievement gap. Such awards include the California Distinguished School and National Blue Ribbon School.

Our highly dedicated teachers, administrators and support staff work each and every day to meet the varied needs of our students. Our district team is guided by the annually adopted Board of Trustee Goals that provide expectations for student achievement, safe and caring schools, technology, staff support and student recognition, and a balanced budget. Each school develops a plan to meet each of these focus areas.

District employees have been trained in bully prevention, as well as actions to take when students bully, are bullied, or witness acts of bullying. Each school has developed a research-based plan to implement at their site using common language and practices to support students. Every student in the Placerville Union School District signs an Anti-Bully Pledge annually that has also been signed by their teacher, principal, parent, Board of Trustee members, superintendent, and numerous community partners who support this charge. These community partners are the Mayor of Placerville, Superior Court Judge, Fire Chief, Sheriff and Police Chief. Together we ensure that all students feel safe in their learning environment.

My sincere thanks go out to parents and community members who have taken an active role in our schools by providing leadership to student groups, and for sharing their time, talents and resources. Together we create outstanding educational experiences that inspire our young leaders.

The mission of the Placerville Union School District is to provide children with an excellent educational program that prepares them academically and inspires them to be confident, life-long learners who strive to realize their potential and make contributions to society.
